EXPERIENCE

June 2016 - Present

Front End Developer

Lake Superior Consulting / Duluth MN

Utilize technology stack to design custom GIS web solutions for clients. Create Angular components and interfaces, working in JavaScript, HTML, and CSS. Manage ArcSDE databases and REST services in ArcGIS Server. Create Python scripts utilizing ArcPy library to automate data processing. Design mobile forms in Survey123.

Jan 2013 - June 2016

GIS Supervisor

Lake Superior Consulting / Duluth MN

Implemented GIS web development while serving as product owner. Managed projects communicating with clients, compiling data and meeting deadlines. Led analysts through delegating tasks, relaying project needs and utilizing the abilities of each individual.

June 2011 - Jan 2013

GIS / CAD Technician

Lake Superior Consulting / Duluth MN

Operated ArcGIS and AutoCAD software to generate professional maps and drawing packages. Connected with engineers to complete project requirements. Promoted GIS analysis capabilities.

EDUCATION

Lake Superior College, Duluth, MN, AAS – Architectural Technology 2011

Construction Documents Technologist (Construction Specifications Institute)

Judson University, Elgin, IL, Design Courses 2007-2008
